Seesaw For Schools Purchasing Consortia Opportunity

ACTEM is pleased to announce it is partnering with Vita-Learn in Vermont and joining its purchasing consortia for **Seesaw licenses**. This will allow ACTEM schools to purchase at volume tiers based on the aggregated total purchase of both Maine and Vermont schools!

Pricing for the 2021-22 school year is guaranteed to be no more than \$4.75/student (as compared to the \$5.50/student standard Seesaw price). If the aggregated total volume exceeds 20,000 licenses, we anticipate a price reduction to \$4.55/student. Last year, Vermont schools accounted for just over 13,000 licenses. Together, we are optimistic that we can reach the 20,000 license count and see additional savings!

Orders must be placed by May 28, 2021, so that we can place one aggregated order AND allow ACTEM time to invoice schools with enough time for schools wishing to pay before the end of the fiscal year to do so. Invoices may be paid either before or after July 1 - you choose the fiscal year that works best for you!

All licenses purchased through the consortia will share a license term of August 1, 2021, to July 31, 2022.

- If your school has a subscription that is due to expire prior to August 1, 2021, be sure to place your order before your expiration date, and the consortia's negotiated terms will include not only the regular annual term but the time between your expiration and August 1, 2021, at no additional cost.
- If your current subscription ends after the start of the consortia's license term, your subscription will be extended to July 31, 2022. The consortia is unable to provide refunds for unused portions of a license subscription.

Purchase orders should be made out to ACTEM and forwarded to me at glanoie@actem.org:

ACTEM
P.O. Box 187
Gorham, ME 04038

If you require a quote, please contact me directly at glanoie@actem.org

ACTEM schools will need to complete a form on the Vita-Learns web site that consolidates all Seesaw orders at the following link: <https://vita-learn.org/seesaw/seesaw-order-form/>

This form will ask all the relevant questions that are needed for your Seesaw's setup purposes.
